European Oak // Botanical Name - *Quercus robur*
Latin: Quercus meaning 'Oak'. Robur meaning 'Strength'
Naked Oak Premium European Oak Flooring is a
product of exquisite beauty and undeniable strength.

Be exposed to Naked Oak.

Manufactured in a world class mill, Naked Oak is a masterful combination of genuine European Oak bonded to a strong plantation eucalypt plywood core. The engineered profile features kissed edges on all four borders, to create an overall dimensional look, and a traditional tongue and groove locking system for easy installation. Each lamella has been exclusively sorted and graded, with only the highest quality oak qualifying for production.

Naked Oak is finished using a wire brushing technique, removing the soft grain to create a surface with natural depth and texture. The uninterrupted topographic like grain of the Oak is accentuated with a Natural stain which simultaneously illuminates the distinct almond, blonde tones to the deep champagne hues of the heartwood.
