

# French Oak Parquet

BY COMPLETE FLOORS AUSTRALIA

*Create a striking custom showpiece from the floor up*

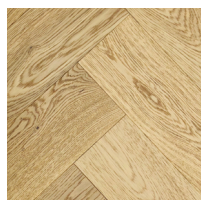

Complete Floors Australia's French Oak Parquet is available in two patterns: Herringbone and Chevron. Each block is carefully constructed using a French Oak lamella for the wear layer which is bonded to a strong Eucalyptus plywood core and reinforced with a veneer backing. This type of construction ensures product stability and quality assurance.

Five traditional and timeless prefinished stain colours are available and an unfinished, uncoated RAW surface option. RAW is the ideal selection to achieve a custom design vision, with limitless choices of stains and finishes to reflect one's personal taste or style.

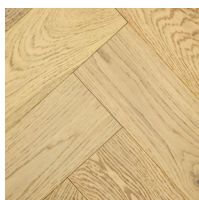

## Colours
